

Wythenshawe Town Centre

Public Realm Consultation Feedback Summary

July 2026

Introduction.

As part of the regeneration of Wythenshawe Town Centre, we want to create outdoor spaces that the local community can enjoy. So, we've been out and about over the last few months to see what you would like to see, whether that's more trees, flowers and benches or play areas for young children.

Thank you to everyone who shared their ideas!

Here's a summary of all the feedback we have received.

Key Themes.

OUTDOOR ACTIVITIES

Many residents wanted to see facilities that support families and the local community, including children's play areas, and leisure facilities such as a skate park and basketball courts. Other ideas included relaxing spaces for parents to sit, and a community herb garden.

NATURE

Nature was also a reoccurring theme throughout the feedback, with suggestions including lots of trees, flowers and spring gardens, as well as water fountains to enjoy.

OPPORTUNITIES FOR LOCAL BUSINESSES

Residents were also keen to see opportunities for local businesses, such as spaces for food and drink vendors.

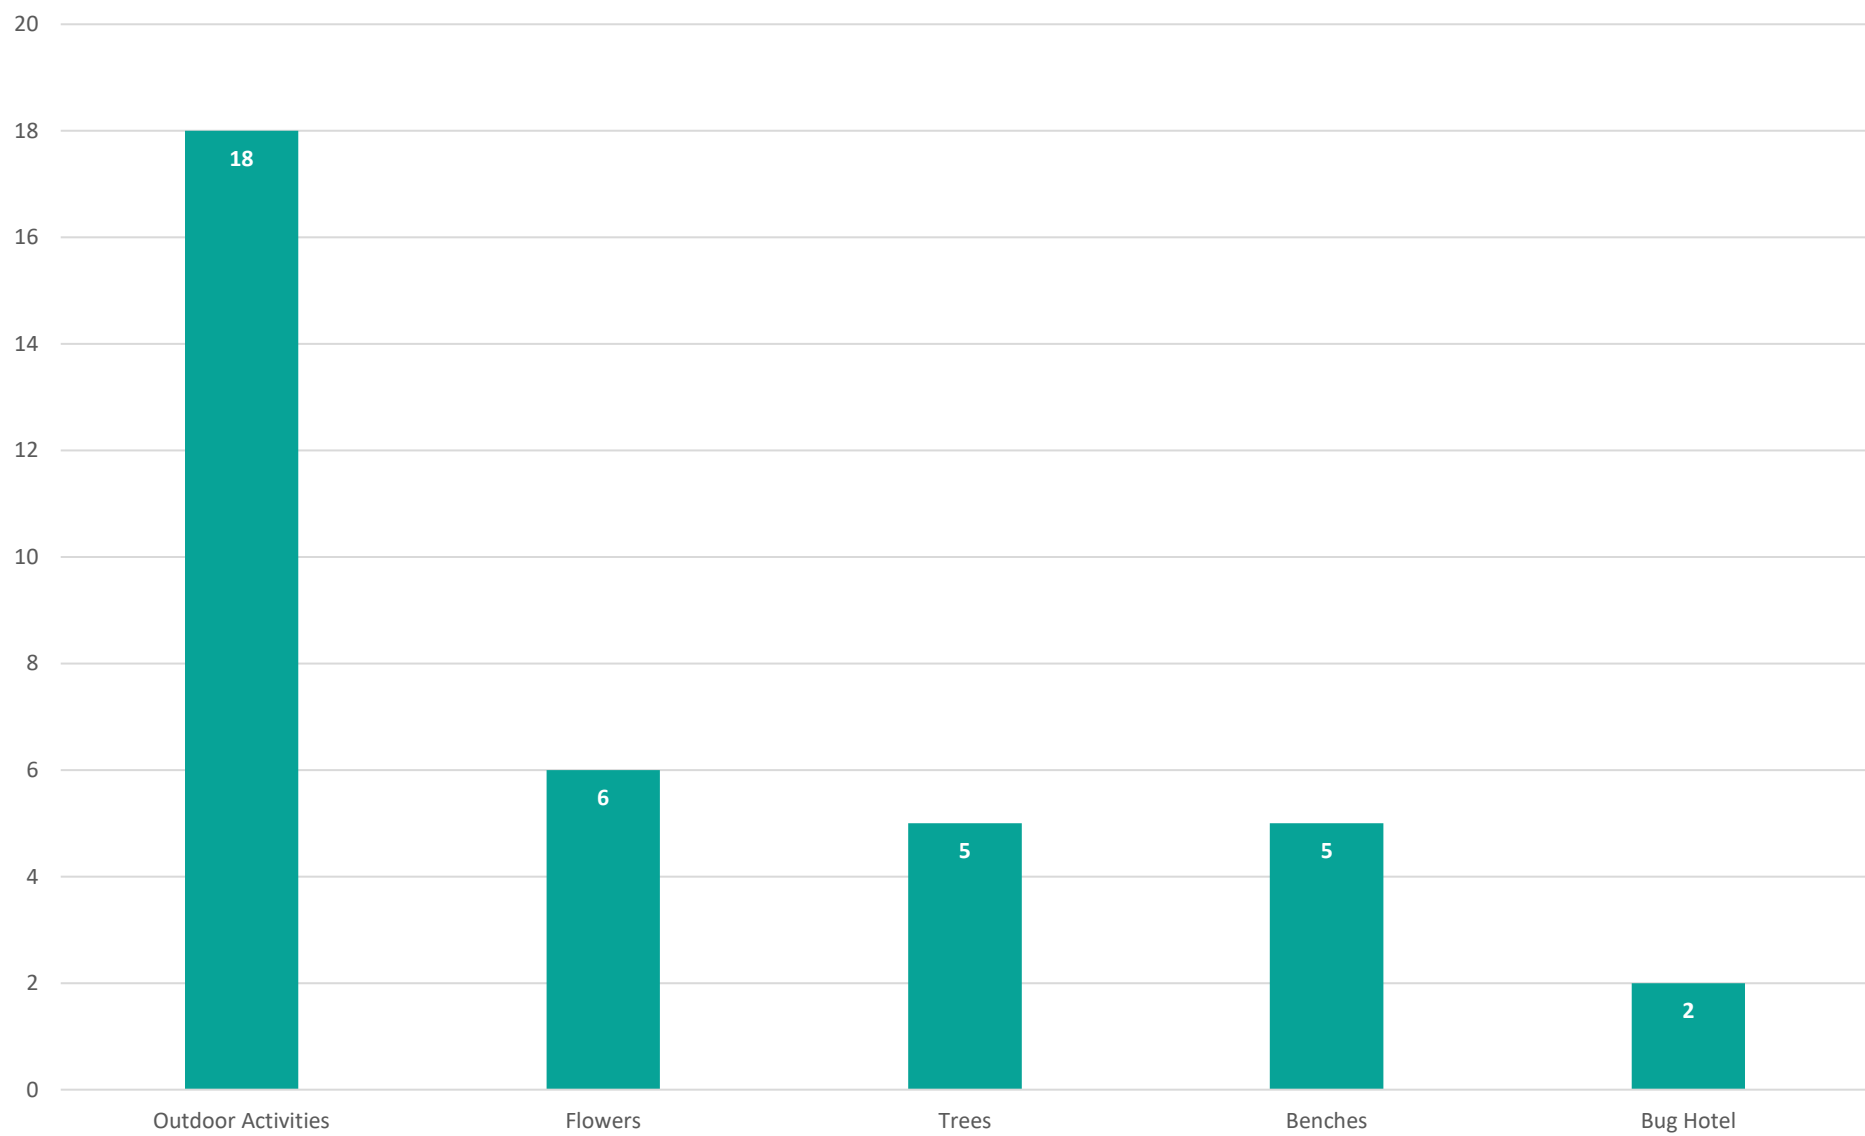

SAFE & WELCOMING

Feedback from the community highlighted a desire for the outdoor spaces within the town centre to be a welcoming and safe for everyone to enjoy.
